1908 GREETING FROM

ARCHIAS' SEED STORE

FOUNDED 1884.

INCORPORATED 1905.

DEAR READER:

You will notice from the heading of this page that our house is near the quarter century mark, our doors having been thrown open to the public for the first time on February 14, 1884. Our business has grown steadily up to the present time, till we now have one of the most complete and up-to-date Seed and Supply Establishments in the United States.

Believing nothing is too good for our customers, we are constantly on the alert for new features, both in seeds and supplies, that keep in pace with the times. Our customers realize when they send us an order, it will be filled as promptly as possible and with the best that can be procured.

We do not attempt to compete with every cheap John in the trade, believing the recollection of quality remains long after the price is forgotten. Archias' "Sure" Seeds and Supplies have the quality.

We have an enormous trade in our line, buy in large quantities, and sell at such low prices your home merchant cannot compete with us. We would be asleep indeed to our advantages if we did not own our goods at lower prices than less experienced concerns pay.

Give the prices in this catalogue a chance to testify that we do share with our customers the benefits of experience, quality and low cost. Kindly look our catalogue over carefully for what you are in need of, and send us your orders. If our prices are not right, or if there is anything not satisfactory, write us, be friendly, and we will do our utmost to please you.

Our Catalogues are free. Tell your neighbors about the Archias' plan, and have them send for our catalogue; thus you do a two-fold favor, which we assure you is appreciated.

Every order, no matter how small, is given our personal attention.

Heartily wishing one and all a Happy and Prosperous New Year, we remain,

Most Sincerely Yours,

ARCHIAS' SEED STORE CORPORATION.

L. H. ARCHIAS, President.

L. ARCHIAS, Secretary.

To Produce a Good Lawn—Plow or dig up the surface thoroughly to a depth of twelve inches and mix the soil with well-rotted manure or our Hemlet Brand Lawn Fertilizer, the latter being at all times, preferable, as it is more durable in its effects and free from weed seeds, which are always contained in more or less quantities in stable manure.

The soil should be well pulverized before sowing, and the lawn kept free from weeds the first season. The quantity of seed required is one pound to every 300 square feet.

Plant of Pencilaria.

Vetches. The Wonderful Sand or Hairy Vetch.

(*Vicia Villosa*.) (See Cut) Sometimes called the Winter Vetch. This useful plant is noted for its extreme hardiness and promises to be highly valuable as a cover crop to prevent leeching, as well as for forage and fertilizing purposes. It is an annual, but drops its seeds freely, and will come up year after year on the same ground. The Washington Department of Agriculture estimates the value of an acre of this Vetch plowed under equivalent to putting into the ground \$16 to \$45 worth of commercial fertilizer. One important feature is that a sowing made in August or September covers the ground before winter sets in and prevents washing of the soil during the winter and early spring, thus saving a great portion of soluble mineral fertilizers contained in soil, which otherwise would wash or leech out. It can also be sown in April and will be ready to cut by the middle of July, the second growth affording excellent hog pasture during the summer. The yield of green forage varies from 10 to 15 tons per acre, equal to 3 or 4 tons when cured as dried hay. Sow in drills, using 30 lbs., per acre. (Lb., 25c, postpaid.) Not prepaid, 10 lbs., \$1.25; 25 lbs. or over, 10c pr lb.

IMPORTANT—The seed we offer is the true Sand Vetch (*Vicia Villosa*.) Do not confound this with the Spring Vetch (*Vicia Sativa*) sold by some seedsmen as the Sand Vetch. **SPRING VETCHES OR TARES**, are grown extensively for stock feeding. They are excellent food for hogs and also a most valuable fertilizer. From 50 to 60 pounds are sown per acre and cultivated as field peas. Lb., 20c, postpaid; 10 lbs. 70c; 50 lbs., \$2.50; 100 lbs. \$4.50.

REID'S YELLOW DENT CORN.

A very prolific variety of Yellow Dent Corn. The small cob is completely covered from butt to tip with solid corn, moderately rough kernels evenly set. A valuable variety for stock feeders. During the past five or six years this variety has come rapidly to the front and occupies a prominent position in all lists. It is of handsome shape and color and largely grown for exhibiting at fairs, corn shows, and is used in many corn schools as a standard for judging. Our stock is from the choicest selected ears and we are sure it would please the most particular. Pkt., 5c, lb. 25c, 3 lbs. 60c, postpaid. By freight per qt. 15c, pk. 50c, bu. \$1.50, 2 bu. \$2.75, 5 bu. \$6.75, 10 bu. \$12.50. Sacked free.

Improved Leaming.

A quick growing yellow variety, highly esteemed by those who have grown it. It usually produces two ears to the stalk. It is one of the seven varieties recognized by the Illinois Experiment Station, where it has been first in yield more times than any other variety in "test of varieties." Numerous tests at the Experiment Station shows it high in protein and oil content, making it valuable to the live-stock grower and feeder. Qt. 10c, pk. 40c, 1 bu. \$1.35, 2 bu. \$2.50, 5 bu. \$6.00. Sacked free.

IMP. LEAMING.

Iowa Gold Mine.

A popular yellow Dent corn originated in Iowa. It has very long grains and very small red cob; matures in about 95 days and has given fine satisfaction throughout the corn belt. Our seed was grown from direct headquarters stock. Qt. 10c, pk. 40c, 1 bu. \$1.35, 2 bu. \$2.50, 5 bu. \$6.00. Sacked free.

Early Yellow Rose.

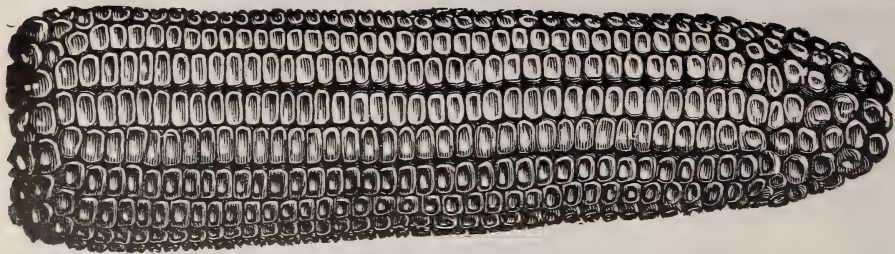

Has made friends rapidly where known. The stalks grow 8 to 10 feet high, full, dark foliage, setting its ears low, usually maturing two good sound ears 8 to 12 inches long. Legal Tender Yellow Dent.

It is the best main crop Yellow Dent we have, being large and deep grained. It yields immensely, ears 10 to 12 inches long; grains 3-4 to 5-8 inches in length and run well up to 20 rows on the ear. They have a glossy orange-yellow body with a lemon-yellow cap; a load of Legal Tender is a thing of beauty. Try a bag of it. Pk., 40c; bu., \$1.35; 2 bu., \$2.50; 5 bu., \$6.00. Sacked free.

Archias' Speckled Beauty.

Introduced by us in 1902, and the past seasons has made a wonderful record. We hope to see all records broken in 1908. It is an improved strain of the old strawberry. Earlier, two good ears to the stalk. Many ears weighing over a pound and no small ears. Yield 125 bushels to the acre in Pettis County last season. The best corn for bottom land but will produce mammoth crops in any good corn land. A guaranteed success. Do not fail to plant it if you wish a big yield and finest quality. Matures in 110 days. As its name implies **It's a Beauty** and will please you. It has a record.

Archias' Speckled Beauty won First, Second and Third Prizes of the Missouri World's Fair Corn Contest held at Sedalia, Mo., for the best mixed color corn; won First Prize at the Missouri State Fair 1902-1903. Won First Prize at the Dallas, (Texas) Fair; also First at Bunceton, Mo., Higginsville, Mo., Ft. Worth, Texas, Paris, Texas, Ft. Smith, Ark. and Topeka, Kan.

Price of Archias' Speckled Beauty, postpaid: Big pkg. 10c, pt. 20c, qt. 30c. Not prepaid, qt. 15c, 4 qts. 30c, pk. 50c, 1-2 bu. 85c, 1 bu. \$1.50, 2 bu. \$2.75, 5 bu. \$6.75. Sacked free.

ARCHIAS' PEDIGREED SEED CORN—Continued.

WHITE VARIETIES.

IOWA SILVER MINE.

A pure white corn and cob; large deep grain, maturing in about 100 days; much resembling the Champion White Pearl. Qt. 10c, pk. 40c, bu. \$1.35, 2 bu. \$2.50, 5 bu. \$6.00. Sacked free.

BOONE COUNTY WHITE DENT.

An exceedingly large-eared white corn with small cob for size of ear. Solid, medium early and extremely productive—best white corn in existence. Don't fail to try it. Qt. 10c, pk. 50c, bu. \$1.50, 2 bu. \$2.75, 5 bu. \$6.50. Sacked free.

CHAMPION WHITE PEARL.

100 days. Stalks short and thick, ears grow from 9 to 12 inches in length, grains will more than span the cob. By a test, 70 ears weighed 87 pounds. It makes superior quality of corn meal. We recommend it highly. Qt. 10c; pk., 40c; bu., \$1.35; 2 bu., \$2.50; 5 bu., \$6.00. Sacked free.

ST. CHARLES WHITE.

An old, well known variety. Its peculiarity is adopted to bottom land, but does well on good prairie or upland. A valuable sort for ensilage, owing to its heavy growth. Grains are pearly white, deep and set on red cob with 18 to 24 rows. Weight of ear 15 to 18 ounces. No more popular or better corn grown. Best corn for the south. Qt. 10c, pk. 40c, bu. \$1.35, 2 bu. \$2.50, 5 bu. \$6.00. Sacked free.

HICKORY KING.

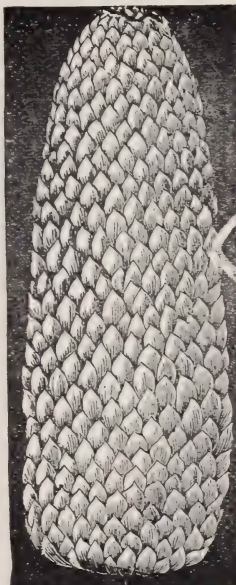

Has very white grain, produces 2 to 3 ears per stalk; cob very small; matures in 110 days. Qt. 10c, pk. 50c, bu. \$1.60, 2 bu. \$2.85.

STOOLING FLOUR CORN.

Stools like wheat, 5 to 10 stalks, 2 to 3 ears each, beautiful pearl white, making fine flour, hominy or good roasting ears, plant 2 kernels to a hill. Pt. 10c, qt. 15c, 4 qts. 50c.

It Pays to plant good Seed Corn, the extra cost is small—the increased yield is BIG. Archias' Pedigreed Seed Corn will double your yield.

POP CORN.

It pays to raise pop corn as a general crop. Demand usually exceeds the supply. Some farmers claim that it is as easily grown as field corn and they receive three or four times the amount per acre for the crop. For main crop the Monarch White Rice will bring the best price per pound as it is better known. Let the children try a small patch anyway for home use. Ask for prices in quantity.

Monarch White Rice.

It is the best white variety. Bears from three to six ears per stalk, and produces fifteen hundred to two thousand pounds per

acre. It will pay you to try it. Pkt. 5c, 1-2 pt. 10c, qt. 30c; by express, 1-2 pk. 60c, pk. \$1.00.

Evergreen Sugar Fodder Corn.

Lots of cheap pork in green sugar corn fodder.

EGGS FOR SETTING From Thoroughbred Poultry.

INFUSE NEW BLOOD INTO YOUR FLOCK.

Did you ever stop to think how much poultry is grown in this country in a single season? Think of it. What an extra pound in quality for each fowl mean when placed on the market; and again an extra dozen or two of eggs per hen at the price of eggs the last season would amount to no small sum. See what you are losing annually by fooling away your time raising common fowls.

We offer eggs of the following thoroughbred poultry at **\$1.75 for 15; \$3.00 for 30; \$9.00 for 100, delivered to any express office in Sedalia.**

All eggs are securely packed in new baskets so as to carry safely.

If we cannot fill your order as requested, we will notify you at once and return your money. Our terms are cash with order. Be sure to write your name and address plainly, giving postoffice, county and state, thus avoiding mistakes and delays.

THERE IS BIG MONEY IN KEEPING BEES.

They work for nothing and board themselves and require but little time to handle. If you have never tried bees, do so at once. Any good colony of bees will make from 75 to 150 pounds of honey per year that will sell at 15 to 20 cents per pound.

TELESCOPE HIVE

(Packed 3 in Crate)

This cut represents our Telescope hive with two supers on and the hood slipped down over them. Brood chambers to these hives are just the same as our dovetailed hive, but the supers are glassed on one side, thus permitting the operator to see what is going on inside without disturbing the bees. The bottom board of the Telescope hive is a combination of bottom board and hive stand, and useful in keeping the hive off the ground
